Karbido

Karbido – that means free choice as it is typical of vanguard artists with an inclination to and experience in music, theatre and art. The artists from Wrocław have made it plain that all sorts of inspiration are allowed, while some of them seem to be a bit more significant than others: criminal jazz, idyllic melodies, folk-like openness and the energy of contrasts. The Karbido crew – far from being precise when it comes to defining their music – passionately fit and shuffle their own puzzles. They play with the listener's habits, at the same time opening the door for careful observers of the world and energetic optimists who like driving at full speed on uneven ground.

The group was created in 2003 by musicians associated with various other bands like CEZ, The Kormorans, and Formacya Bochianni. Since 2004 Karbido is associated with Hermetic Garage, Tomasz Sikora's artistic activities platform, which incorporates many artistic projects, such as «The Table», «The LZ 129 Hindenburg Disaster», «PAPER T.E.S.L.A. SHOW», or a cycle of «traditional» «Avant Live» concerts. Hermetic Garage is a multi-collective that acts as label, studio and publisher. It produces music records, radio shows, video-clips and films.

Karbido also created the musical background for theatrical spectacles directed by Tomasz Man: «111», «Medea» as well as the «Tchernobyl TM» show, by the Biuro Podróży and Arabesky (Kharkiv) theatres. The band performs in Poland and abroad; the members all live and create in Wrocław.
